

# TECHNICAL DATA SHEET

## 2X2 PANEL LIGHT

### TECHNICAL SPECIFICATION

Fitting Type	Panel Light
Power Consumption	36 Watts (when on at full brightness) and after 3min, 18 Watts when Dim down
Operating Description	form 100% to 50% If there is no motion till 3mins, again further it will be down to 10% after 3mins if no motion no detected.
Microwave Sensor Range	5 - 6 Meters
Input Voltage	50-80 V DC
Lifetime	35,000+ hours
Colour Temperature	6500K
Light Output	3600 lumens
Dimmable	Yes
Dimensions	2x2 feet

### DRIVER SPECIFICATION

Surge Protection	Up to 4kV
Efficiency	90% At Full Brightness
Power Factor	<0.98
Functions	DIM - Smooth gradual dimming from 100% to 50% if there is no motion till 3mins, Again further it will be dim down to 10% after 3min, if no motion detected. Will come to 100% brightness in next motion.
Microwave Sensor Range	5-6 Meters (Radius)
